SUMMARY:

Software Engineer with 3 years of experience in designing and developing scalable, high-performance mobile and **web applications using Angular, Ionic Framework, TypeScript, and Node.js**. Skilled in building responsive UIs, integrating RESTful APIs, and ensuring code quality using modern security and compliance tools such as **WhiteSource, Checkmarx, CodeQL, and BlackDuck**. Experienced in Agile environments, collaborating effectively with cross-functional teams to deliver clean, maintainable, and user-centric solutions

SKILLS:

- **Frameworks:** Angular, Ionic framework,
- **Languages:** JavaScript, TypeScript, HTML, CSS, Node.js.
- **Technologies & Tools:** Git, GitHub, Postman, Jira
- **Security & code quality tools:** Whitesource, Blackduck, checkmarx, CodeQL.

PROFESSIONAL EXPERIENCE:

TECH MAHINDRA PRIVATE LIMITED

DECEMBER 2022 – PRESENT

SOFTWARE ENGINEER

- Developed and maintained **cross-platform mobile applications** for SAP Ariba using **Ionic Framework, Angular, TypeScript**, and **SCSS**, delivering high-performance and user-friendly mobile experiences.
- Collaborated with backend teams to **integrate and optimize RESTful APIs**, improving data synchronization and reducing response times across key workflows.
- Diagnosed and resolved performance issues, enhancing **application stability and load speed** across multiple mobile environments.
- Managed **builds and deployments** across multiple environments, preparing release plans that streamlined delivery processes.
- Ensured compliance with **security and code quality standards** using tools like **WhiteSource, Checkmarx, CodeQL**, and **Black Duck**.

PROJECT:

Orbit – Internal Web Application (Tech Mahindra) (Role: Frontend Developer | Tech Mahindra Internal Project)

Tech Stack: Angular, TypeScript, HTML5, CSS3, REST APIs

- Designed reusable **Angular components** for Tech Mahindra's internal project portal.
- Enhanced UI performance and maintained **responsive layouts** across modules.

Fiori Procurement App – SAP Ariba Mobile Application (Role: Software Engineer | SAP Project (Client: SAP))

Tech Stack: Ionic, Angular, TypeScript, SCSS, REST APIs, Jenkins

- Developed and optimized **cross-platform mobile features** for SAP Ariba using Ionic + Angular.
- Improved **load time by ~25%** through lazy loading and API optimization.
- Integrated secure **RESTful APIs** and supported **CI/CD** via Jenkins and Git.

AWARD:

- Received the prestigious **BRAVO** Award from Tech Mahindra in recognition of outstanding performance and exceptional contributions to the project.

EDUCATION:

Netaji Subash Engineering College|B-Tech-Electrical Engineerig|CGPA-8.2|2018-2022
