SUMMARY:

Ionic Angular JS Frontend Developer with **2 years** of experience in designing, building, and maintaining frontend applications. Proficient in **JavaScript**, **TypeScript**, and **ionic Angular**, with a strong understanding of **RESTful APIs**. Skilled in writing efficient, scalable code, troubleshooting, and optimizing performance. Adept at working in **Agile** environments and collaborating with cross-functional teams to deliver robust software solutions.

PROFESSIONAL EXPERIENCE:

TECH MAHINDRA PRIVATE LIMITED

DECEMBER 2022 – PRESENT

SOFTWARE ENGINEER

- Worked as a **Frontend Developer** for **SAP ARIBA**, made valuable contributions by developing and maintaining features.
- Contributed to backend development by troubleshooting and resolving issues using Java, demonstrating a flexible skill set across frontend and backend components.
- Debugged and resolved issues in existing applications, improving stability and performance.
- Collaborated with cross-functional teams following Agile methodology to ensure efficient and timely project delivery.
- Managed deployments across multiple environments, preparing release plans to streamline the development process.

PROJECT:

Fiori Procurement app:

- **Developed and implemented** new features in Ionic Angular JS based on customer requirements, ensuring timely delivery within agreed Service Level Agreements (SLAs), enhancing app functionality and user experience.
- **Collaborated with stakeholders**, including product managers and designers, to translate business needs into technical requirements, defining clear, actionable tasks for mobile application development.
- **Optimized app performance**, improving load times and overall functionality, resulting in a more responsive and efficient mobile application, leading to better user engagement.
- **Contributed to the mobile application's security** by integrating and managing security tools such as Checkmarx, WhiteSource, Black Duck, and CodeQL, ensuring secure coding practices and compliance with security standards

SKILLS:

- **Languages:** HTML, CSS, JavaScript, TypeScript, Java.
- **Frameworks:** Ionic Angular, React-Native
- **Technologies:** Git, SAP Hana, Jenkins, whiteSource, Black duck, GCP services, Jira.

AWARD:

- Received the prestigious **BRAVO** Award from Tech Mahindra in recognition of outstanding performance and exceptional contributions to the project.

EDUCATION:

Netaji Subhash Engineering college | Electrical Engineering | CGPA – 8.2 | 2018-2022
